

FOODIEKIDS

We're here to make your lunch program easy and enjoyable for kids, parents, PACs, and schools!

MADE FROM SCRATCH

We make almost everything from scratch, daily!

HUGE SELECTION

An ethnically diverse menu with a taste for everyone.

REAL INGREDIENTS

We use real ingredients! Butter - not margarine, real cheddar cheese and fresh vegetables. We avoid processed ingredients. With Foodie Kids, you get real quality food, with no short cuts or fillers.

EASY FOR EVERYONE

We offer a complete, hands-off solution for the PAC. You will only need one or two volunteers on lunch day, leave the rest up to us!

CUTLERY NOT PROVIDED

GUARANTEE OF SERVICE

Foodie Kids, like all businesses, strives to provide the best service possible at the highest standards without errors. We can not, however, guarantee 100% that there will be no errors made. In the process of making lunches for up to 2500 kids per day, many things need to happen and many people are involved. The chance of human error is always there. If you have special requirements that would be compromised were a mistake to happen, we strongly suggest NOT to order from us. (Please note Allergies section below)

ALLERGIES

We do not have the ability to create special orders. The menu contains several options that would be suitable for many different dietary restrictions such as Gluten Free, Vegetarian, no pork etc. Other than the options available through our on-line ordering system, there are no changes to the menu possible

NUTS

While we offer a 100% nut-free menu, we are NOT a nut-free facility.

GLUTEN-FREE

While we offer gluten-free menu options, we are NOT a gluten-free kitchen.

Cross contamination is always possible. It is the sole responsibility of the purchaser to ensure that the ingredients in the product being purchased are safe for consumption due to allergies.

If a child is very sensitive or is anaphylactic to an ingredient used in our kitchen, this person should not place an order. We take allergies very seriously but we cannot guarantee cross contamination will not occur.
